

Curve, Speedcrash

Clear around the bend
Faster on the lane
There's a crisis up ahead
Slow it down again
There's a crisis up ahead
Slow it down again
You're in the best of hands
Or so you'd like to think
My turning's up ahead
And you don't even blink
My turning's up ahead
And you don't even blink
I live for speed

Hit the hidden heights
Dial the secret code
There's a crisis up ahead
But you don't even blink
There's a crisis up ahead
But you don't even blink
I live for speed
You stay unaware without a care
There's no response that's long gone
You crave rapid lights, acid nights
There's no respect that's long dead
It's long long dead.
