

Curved Air, Dance Of Love

Take me from this crowded room
Give me room to hold you close
Hold so close to come unfold
Take my body with your soul
Loose yourself inside my arms
Two as one can steal the stars
Torn and free, beyond control
Take my body with your soul

Do the dance,
the dance of love
Dance of love
Do the dance,
the dance of love
Dance with me

Touching deep, we feel the world
Reaching deep inside ourselves
Cutting loose from roots of home
Scattered winds, the winds of change
Weightlessly, we drift in sleep
Drifting circles of our dream

Dreams of love, beyond control
Take my body with your soul

Do the dance,
the dance of love
Dance of love
Do the dance,
the dance of love
Dance with me

Do the dance,
the dance of love
Dance of love
Do the dance,
the dance of love
Dance with me
Do the dance,
the dance of love
Dance of love
Do the dance,
the dance of love
Dance with me
