Curved Air, Heaven (Never Seemed So Far Away

Good friends and I'm a stranger So hard to circulate Crowded streets, I see no faces No place for a changing soul Like a ship on an angry ocean Ferris wheel that spins too fast For a dog, snarling in a corner Heaven never seemed so far away

Maybe the game is someone else's Too tired to play along Go on your way takin' chances Your way is yours alone

For an artist in a hungry basement Or a rain on a lonely man Or a kid, fightin' with his father Heaven never seemed so far away

Good friends and I'm a stranger So hard to circulate Crowded streets, I see no faces No place for a changing soul Like a ship on an angry ocean Ferris wheel that spins too fast For a dog, snarling in a corner Heaven never seemed so far away
