

Curved Air, Moonshine

Floatin' in space
Driftin' through the stars
Waitin' and waitin'
For you to appear
Gracin' the sun
Playin' in the moonshine
Would be a pleasure
If you were here too
Come up and join me
Come up and see me
Leave all behind you
Start something new
Oooo...

There will be good times
Like the time before
When the earth was new
And all was me and you
There will be good times
Like the time before

When the earth was new
And all was me and you

We'll fly together
From Jupiter to Mars
Return old friends as we pass through the stars (the stars)
So much to see
So much to do
Nothing to lose
Just me and you
Oooo...

There will be good times
Like the time before
When the earth was new
And all was me and you
There will be good times
Like the time before
When the earth was new
And all was me and you
