

Cut City, Anticipation

This time, this time drunken eyes weigh on
These are the days that we get
These are the days that we get
These are the days that we get
You've got to lay down your arms

Sometimes, sometimes tired hands are just that
These are the days that we get
These are the days that we get
These are the days that we get
You've got to lay down your arms

This time, this time drunken eyes weigh on
These are the days that we get
These are the days that we get
These are the days that we get
You've got to lay down your arms
