

# Cut Copy, So Haunted

What's that you see?

There's all these satellites, satellites, satellites

Orbiting you and me

Just one glimpse can change your life, change your life, change your life

And you can see

Through all these satellites, satellites, satellites

Orbiting you and me

One glimpse change your life, change your life, change your life, change it

I get so haunted, I fall in your dreams tonight

I get so haunted, that I'm misunderstood tonight

What's that you see?

There's all the satellites, satellites, satellites

Haunting you and me

Just one glimpse can change life, change life, change life

And you can see

Through all these satellites, satellites, satellites

Haunting you and me

One glimpse change your life, change your life, change your life, change it

I get so haunted, I fall in your dreams tonight

I get so haunted, that I'm misunderstood tonight

I get so haunted, I fall in your dreams tonight

I get so haunted, that I'm misunderstood tonight

This is real, this is what you search out

And you wouldn't believe, you could never say it's true

You can leave, and you could go out, search out
