

# Cute Is What We Aim For, Through To You

Well I've been busy creating this big mess  
(That we've been making me a part of success)  
It's safe to say I passed the test  
(And I can see you shaking under the stress)  
A short, short scenario, a different situation  
You can't keep them angry with your verbal masturbation  
I've been blinking  
You've been thinking  
Where does that leave us now?

I'm gonna make sure this is better than before  
I'm gonna get through to you  
I'm gonna make you do the things you never thought you'd do  
I'm gonna get through to you  
Yeah, I'm gonna get through to you

(Yo take that bass line for a walk)

While you were giving noise cancerous answers  
Scandalous dancer, a second glance  
A second chance, at romance  
I'd never thought you'd do me like you did  
I assumed the opposite  
This is where we end up  
I'm not for nothing  
This is where we end up  
I'm not for nothing

I'm gonna make sure this is better than before  
I'm gonna get through to you  
I'm gonna make you do the things you never thought you'd do  
I'm gonna get through to you  
Yeah, I'm gonna get through to you

(One, two)  
It seems in everyone's life  
We rise and fall, it happens to us all  
It seems that everyone's right  
In taking these chances (failed romances)

Why you gotta go and do me like that?  
Why you gotta hide the truth?  
Why you gotta go and play me like that?  
Why you have to act a fool?  
Why you gotta go and do me like that?  
Why you gotta hide the truth?  
Why you have to go and play me like that?  
Why you have to act a fool?

I'm gonna make sure this is better than before  
I'm gonna get through to you  
I'm gonna make you do the things you never thought you'd do  
I'm gonna get through to you  
Yeah, I'm gonna get through to you  
I'm gonna make sure this is better than before  
I'm gonna get through to you  
I'm gonna make you do the things you never thought you'd do  
I'm gonna get through to you  
I'm gonna...get through...to you
