

Cycle V, Seduce Me Tonight

Livin' on the edge, flyin' down the hill
To where the good girls don't, but the bad girls will, bad girls will
Do I know your name, you can tell me lies
Show me all the secrets hidden in your thighs, in your thighs

Seduce me tonight, se-se-seduce me tonight
I'll play acts at the stage, dim the lights, and baby seduce me tonight

I wanna be your slave, set me in scene

Take me all the places that I've never been, never been
Play the leading role, love me till I cry
Let the curtain fall and love me till I die, till I die

Seduce me tonight, se-se-seduce me tonight
I'll play acts at the stage, dim the lights, and baby seduce me tonight

Seduce me tonight, se-se-seduce me tonight
I'll play acts at the stage, dim the lights, and baby seduce me tonight

Seduce me tonight, se-se-seduce me tonight
I'll play acts at the stage, dim the lights, and baby seduce me tonight
