

Cyndi Lauper, Shining Star

You're my shining star
More and more I think you've gone too far
I thought I cried the nite you went away
You're my shining star

You broke my dreams, you broke my heart
And now you're tearing us apart (somehow)
Oh oh oh oh baby you're my shining star

Over and over you string around my heart
So what's your move cause I'm all a-fire
Hey you! My shining star

You broke my dreams, you broke my heart
And now you're tearing us apart (somehow)
Oh oh oh oh baby you're my shining star
More and more and more you are (rock it)

You broke my dreams, you broke my heart
And now you're tearing us apart (somehow)

And since that night you went away
Love me, leave me baby let me know
Don't build me up just let me go
Don't cha know that you're messing with my heart?
Goodnite
