

Cyndi Lauper, Still With Me

Close my eyes
My mind, looks for you everywhere
You and I, intertwined
In everything we share

You watch me
Undercover, dirty lover
Don't call 900 anything
Testing, testing, 1, 2, 3, 4

Are you still with me now
Do you still care
Have I grown complacent, just
Know you'll always be there
Just know you'll always be there

Staring out the blinds
Like I'm in a picture frame
Dancing out of time
While you're whispering my name

You've got me in the shutter
You've got my number
Silhouetted on the wall
Makes me feel like 1984

Are you still with me now
Do you still care
Have I grown complacent, just
Know you'll always be there
Just know you'll always be there

It's just that sometimes
I think I notice
A certain change going by
And I find that I turn a blind eye
And I can't see clear any more

Are you still with me now
Do you still care
Have I grown complacent, just
Know you'll always be there
Just know you'll always be there

Are you still with me now
Do you still care
Have I grown complacent, just
Know you'll always be there
Just know you'll always be there
