

# Cyndi Lauper, This Kind Of Love

This kind of love ain't right  
Won't take us through the night  
This kind of love's not true  
Not good for me or you

Woke up to find myself  
Standing in another day  
Filled with anxiety  
I'm praying for a different way  
I give it all I have  
Till I have no more to give  
I used to think I'd die for love  
Now I'd rather live  
If everywhere you look, you find some misery  
The view from there can make you feel  
Just a little crazy

This kind of love ain't right  
Won't take us through the night  
Some think love equals pain, but...  
This kind of love's not true  
Not good for me or you  
I think we got to get out of this rain

Stay walking through life  
Waiting for the other shoe to fall  
Dreams cut like a knife  
When you think you shouldn't dream at all  
I saw a dark cloud  
Looks like it follows us around  
It doesn't take that much, you know  
To make it tumble down  
How did we ever go from being so happy  
To suffer alone and be strong  
Just so we can keep on giving up

This kind of love ain't right  
Won't take us through the night  
Some think love equals pain, but...  
This kind of love's not true  
Not good for me or you  
I think we got to get out of this rain

If everywhere you look, you find some misery  
The view from there can make you feel  
Just a little crazy

This kind of love ain't right  
Won't take us through the night  
Some think love equals pain, but...  
This kind of love's not true  
Not good for me or you  
I think we got to get out of this rain

[Repeat Chorus]
