

# Cynthia, Endless Nights

The sun went down, and the night came through  
While my heart still lay deep inside for you  
Wishing and hoping for just one more try  
I refuse to wave the love we shared goodbye  
But it's not too late, no need to make you wait  
You're always in my heart, no need to hesitate  
It took us so much time for us to make it right  
So darling don't you wait, it's really not too late

So please make this an endless night  
With just a little love we can make it right  
It's there, I know I always loved you so  
I hope this endless night won't let you go

Days passed by, and still I wondered why  
The times we shared seemed to slip us by  
The moments we spent were so few but true  
So come back to me, I'm still in love with you  
And though I know we may not be the same  
I'll try my best for now, no more time for games  
Cause deep inside, I know our love is strong  
Knowing you and I would always glow

So please make this an endless night  
With just a little love we can make it right  
It's there, I know I always loved you so  
I hope this endless night won't let you go

But it's not too late, no need to make you wait  
You're always in my heart, no need to hesitate  
It took us so much time for us to make it right  
So darling don't you wait, it's really not too late  
So please make this an endless night  
With just a little love we can make it right  
It's there, I know I always loved you so  
I hope this endless night won't let you go

I always loved you so  
Was afraid to let you know  
Would you understand, it's true  
That I'm still in love with you  
I love you  
I need you to love me too  
Oh be mine, and I will you love you all the time  
I always loved you so  
Was afraid to let you know  
Would you understand, it's true  
That I'm still in love with you.
