

CYNTHIA ZIETARA VERAZIE, DANCING WITH THE SHADOWS

I've seen the darkness in your eyes
But I need you, by my side
Don't let these walls become your life
Let light through, and we'll survive

Somehow you and I will find a way
We will live to fight another day

We'll be dancing with the shadows
Come tomorrow, and a brighter sky will follow
When we're dancing they can't hurt us
When the light goes, we'll be dancing with the shadows

Far from the world we used to know
But I won't be scared of the cold no more

Cause I know you and I will find a way
We will live to fight another day

We'll be dancing with the shadows
Come tomorrow, and a brighter sky will follow
When we're dancing they can't hurt us
When the light goes, we'll be dancing with the shadows

No matter what they say about us
I know that there's a light inside us
And I know there will come a day

We'll be dancing with the shadows
Come tomorrow, and a brighter sky will follow
When we're dancing they can't hurt us
When the light goes, we'll be dancing
