

Cypress Hill, Come With Me

Come with me
Hail Mary
Let me grow that green
What do we have here now?
Let's get fucking high tonight
La da da da da da la da
Come with me
Hail Mary
Let me grow that green
What do we have here now?
Let's get fucking high tonight
La da da da da da la da

Let's buy the desire
To create the fire
I must get you higher
You're required to enjoy it
It expires
90 days
In the haze
Crops that will amaze
Trimmers gettin' paid
So many joints are gettin' blade
Got your CBDs growin' in the back
No THC
PHD
Cultivation spree
You must pay a fee
Insane OG
To the brain lowkey
Maybe it's just me
But I think you need some weed

Grown from a seed
To a hole in the street
So many close to feed
For the high we achieve
Blessings received from Mother Mary
Raising crops 'round the clock
Now the stock is legendary smoking

La da da da da da la da

Come with me
Hail Mary
Let me grow that green
What do we have here now?
Let's get fucking high tonight
La da da da da da la da
Come with me

Let's get fucking high tonight

One of the reasons
I made it through many seasons
Is this weed that I breathe in
That keeps my brain dreamin'
My reachin' for higher levels
I never settle
I was a young pup from out of the ghetto
That set the tempo

God bless the leaf
Rest in peace
To anyone that stands between
The legalization that we want to see
Good green and the papers
That's the recipe
Phuncky Feel Tips and a lighter
Let it set you free

If anybody tries to question our integrity
I'm flexin'
Let me give you the projection
Heat is coming in your direction
Hit you in your solar plexus
It's the power of suggestion
Look at me now
Never stressin'
Liftin' them up
Give 'em a lesson
Smoke in the mouth
In the session
Better believe they fill the essence

La da da da da da la da
Come with me
