

D:a:d, You Do What I've Just Done

You hunt the smartest animal and that's the human being
You don't know how smart man is - smarter than he seems...
Their fathers groin that breeds'em, their mothers breast that feeds'em
Yeah, the do - Yeah, they do...

To be childish keeps you young, but to be treated like a child
Makes you old too soon - Haven't spent time with Jesus to know if that's true
Our fathers backs that leaves us, our mothers arms that needs us
Yeah, they do - Yeah, they do...

Keep that in mind next time that you do what I've just done
I no longer want to be a fireman
Keep that in mind next time that you do what I've just done
I no longer wanna be a fireman - and I know, I know you'll understand
