

# D'Sound, Remember These Moments

Remember These Moments  
D'Sound

I remember that crooked smile  
I remember that glow in your eyes  
I remember these moments baby with you

Kind of beauty you've fallen to  
Kind of thought makes it painfully true  
I remember these moments baby with you

Do you still see me reach for you  
The way you used to care  
Do you still think I should be baby with you

I remember the warning signs  
I remember I paid them no mind  
Coz I wanted these moments baby with you

When it rained thought I didn't cry  
When I left without saying goodbye  
I remember these moments baby with you

Do you still see me reach for you  
The way you used to care  
Do you still think I should be baby with you

reach for you  
missing you  
secretly recalling what has been  
I don't want to remember

do you still see me reach for you  
the way you used to care  
Do you still think I should be baby with you
