[Proof]  
There ain't no trouble in rock (rock)  
On every block (block)  
Late for School, Late for Work  
But ahead of these cops (cops)  
My credit is shock, in the detinate box (box)  
Like, people take my life and thats pathetic as Pac's (Pac's)  
A waste of the talent, Say my boys is just no where  
Placed on the planet, remain in poisonous warfare  
Derelict Arabic terrorists in the air  
Shit arrogant apparent to punish people by their heritage,  
Nato barriers, Hate embarrassed  
There is the faith to cherish  
In your room face to face with race awareness  
A race to shit army bombin' your God is with you  
Calm over war, we gotta start our pistol  
Cause if you right and, know you right, then where's your ritious ways  
We sacrafice, snatch your life, many nights and days  
Follow me into equality we might behave  
And only christ can say the trife will reunite again

[Kuniva]  
America Owns, Without a fucking care in my dome  
Bearin' my bones, so far away staring at home  
Stay at my zone, falling asleep late with my chrome  
Feelin' hype from these rockets burning like straightenin' in the cones  
Stay at the streets, bullshit and plans to beef  
Spray at your peeps for Christmas, give a K to my niece  
Real nigga's feel us and fear us  
Gorillaz beat on they chest when  
Dangerous lyricist, I hope that you hear us  
The spirit of Bugz is still in me  
God bless it the trinity  
Cause my bullets they come in three's like trilogy's  
Put the knife away, missles away strike and blaze  
So much smoke you can't tell the difference between night and day  
Right away blow your life away, so light your haze  
Hold tight grenede's so when it blows I'm slightly grazed  
Kuniva might be crazed unleashin' unlikely rage  
The next time you hear a verse from me I might be caged

And I ain't never going home, Bizarre can for go  
It's cold I'll be for cyphering, right from wrong  
As I sit in my seat and remain calm  
And close my eyes and wait for the bomb (There it comes!)

[Swiftly]  
I'm gettin' the fuck on, I'm aggrivated

I know I'll make it, Im in a place full of hatred  
Treatin' my life like a sacrrred  
Try to check me, I break your neck  
Disrespect me you get injected

You least expected  
We just don't accept it nigga

They say we bad for you but shit our music is your friend  
They cant deter you from the truth cause we the helping hand
