

Da Buzz, Got this feeling

Baby can you feel me I'll do anything for you
What a funky feeling
You and I can do it too?
Maybe we can dance all through the night
Move on up and you can be alright
The music turns me on I'm here for you
Is this for real?

I got this feeling
Nothing can go wrong when you stay with me
I got this feeling
Tonight we gonna dance I'll make you see
And when we touch
I feel so high
You give me wings so I can fly
I got this feeling
Tonight I'm gonna love you and do you right

Listen to my heartbeat
Fast enough to cross the sky
My love is taking over
No reason left to ask me why

We'll make it 'till the music stop to play
Take my hand I'll lead you all the way
You're in command it's up to you
I'll make you will

I got this feeling
Nothing can go wrong when you stay with me
I got this feeling
Tonight we gonna dance ill make you see
And when we touch
I feel so high
You give me wings so I can fly
I got this feeling
Tonight I'm gonna love you and do you right

Tonight I feel im falling
My heart can start explosions
Ooohh, something for lovers
And ill show you how

I got this feeling
Nothing can go wrong when you stay with me
I got this feeling
Tonight we gonna dance ill make you see
And when we touch
I feel so high
You give me wings so I can fly
I got this feeling
Tonight I'm gonna love you and do you right
