

# Da Buzz, How Could You Leave Me

Tell me, everything you wanna be  
And tell, me everywhere you wanna go  
Then say to me, when everything is fine I'm waiting, you can see the fire  
I'm waiting, never stop believing  
You are taking, all my breath away

How could you leave me.  
Now when you're gone  
I look at myself, how could you leave me  
When you were here it was fine.  
How could you leave me  
Now when you're gone  
I look at myself, how could you leave me  
Why can't you stay close to me?  
How could you leave me?

I'm sorry, I wish it could be over  
I'm so sorry, If you wanna leave me  
But I just can't understand the cause  
I'm waiting, you can see the fire  
I'm waiting, never stop believing  
You are taking, all my breath away

How could you leave me?..

Danger, I can't be without you  
I'm in danger,  
I don't know how to make it  
I'm hurt because,  
You're pouring out my heart.

How could you.
