

Da Buzz, Key To My Heart

Heaven above
Clouds all around
Free like a dove
But lost without love

I, I am waiting here for you
Oh, do you feel the same way to

The key to my heart
The road to my love it aren't that long
Just remember that the love you get is all you ever need

The key to my heart
The door to the room I'm waiting in
You know the way
You hold the key to my heart

Water and air
Gentle summer breeze
Smiles everywhere
But this in your care

I, I am waiting here for you
Oh, do you feel the same way to

The key to my heart
The road to my love it aren't that long
Just remember that the love you get is all you ever need

The key to my heart
The door to the room I'm waiting in
You know the way
You hold the key to my heart

I've been searching everywhere for somebody just like you
All you have to do is turn the key
The key to my heart

The key to my heart
The road to my love it aren't that long
Just remember that the love you get is all you ever need

The key to my heart
The door to the room I'm waiting in
You know the way
You hold the key to my heart
You hold the key to my heart
The road to my love it aren't that long
Just remember that the love you get is all you ever need

The key to my heart
The door to the room I'm waiting in
You know the way
You hold the key to my heart
