

# Daan, Galaxy

Girl  
Girl you are my galaxy  
Dive into my gravity  
Never ending galaxy

Come  
Come into my galaxy  
Dance upon the stars with me  
Synchronize our energy  
Girl you are my

You're a never ending lightyear  
By your speed I am amazed  
You're the moon and I'm your dark side  
By our loving I am phased  
We will sail through any black hole  
All our memories erased  
We ain't gonna bite no stardust  
With our visions interlaced  
Universal world  
Interstellar bird  
Galactising girl

Girl you are my galaxy  
Dive into my gravity  
Never ending strategy  
Girl you are my

Come  
Come sail all your ships to me  
Battle without enemy  
Space can be our remedy  
Girl you are my

We will sail through any black hole  
All our memories erased  
We ain't gonna bite no stardust  
With our visions interlaced  
Universal world  
Interstellar bird  
Galactising girl

Girl you are my galaxy  
Dive into my gravity  
Neverending galaxy

Come  
Come into my galaxy  
Dance upon the stars with me

Like the birds we will breed in the galaxy  
All our girls will be queens in the galaxy  
All our boys will be kings in the galaxy  
And we'll all sing a song in the galaxy

Like the birds we will breed in the galaxy  
All our girls will be queens in the galaxy  
All our boys will be kings in the galaxy  
And we'll all sing a song in the galaxy

Like the birds we will breed in the galaxy

All our girls will be queens in the galaxy  
All our boys will be kings in the galaxy  
And we'll all sing a song in the galaxy
