

# Dada, Feet To The Sun

They say it's a waste  
A waste of water  
Don't let it run through the cracks  
You roll it like a wave  
A wall of water  
Slides right off your back

By the way, you'll be happy just to learn  
I've given up on you  
By the way, you'll be happy just to learn  
I've given up on you  
Given up on you

Down to the river, the river I run  
Down to the river, the river I run  
Point my face to the water  
My feet to the sun

They say you have your ways  
Your ways about you  
Beautiful lips tell lies  
I'm going through a phase  
Like a moon without you  
Howling to cold black skies

By the way, you'll be happy just to learn  
I've given up on you  
By the way, you'll be happy just to learn  
I've given up on you  
Given up on you

Down to the river, the river I run  
Down to the river, the river I run  
Point my face to the water  
My feet to the sun

(solo)

By the way, you'll be happy just to learn  
I've given up on you  
Given up on you

Down to the river, the river I run  
Down to the river, the river I run  
Point my face to the water  
My feet to the sun

Down to the river, the river I run  
Down to the river, the river I run  
Point my face to the water  
My feet to the

Sun (doo doo doo doo, doo, doo doo doo, doo)
