

# Dada, I Wish You Were Here Now

(One, two)

I wish you were here now  
I'm feeling low  
I wonder how you are  
I miss you so

We'd be together  
Just like before  
A break in the weather  
A truce in the war

La, la, la, la  
La, la, la, la  
La, la, la, la  
La, la, la, la

I'd take you somewhere  
Away from the crowd  
We'd drift forever  
On my getaway cloud

La, la, la, la (I wish you were here now)  
La, la, la, la (make the pain disappear)  
La, la, la, la (distortion is clear now)  
La, la, la, la (how I wish you were here)  
La, la, la, la

It's not impossible to make it  
It's time for you to come on home

(solo)

It's not impossible to make it  
It's time for you to come on home, home

Silence can hold you  
Dazed in a dream  
It gets so quiet  
You want to scream

I see only one star  
Through my window pane  
I'll make a wish, girl  
'Cause it's starting to rain

La, la, la, la (I wish you were here now)  
La, la, la, la (make the pain disappear)  
La, la, la, la (I wish you were here now)  
La, la, la, la (how I wish you were here)

La, la, la, la (Repeats)
