

Daiquiri, Rejected By Science

Cut, why won't you cut me?
Don't I even deserve an autopsy?
I donated my body
Science rejected it

Just keep it, your body is no good here
Just keep it, we don't want it

I always dreamed of having myself dissected
Donated my body but it was rejected
Medical students, no nurses inspected
It was not good enough, it was rejected
It's my final offer and it got shot down
Dead or alive no one wants me around
