

Dakota Moon, Another Day Goes By

Another Day Goes By

By Dakota Moon

Mr. Greene

Asked me yesterday

Boy what do you want to be

With some work

In ten years or so

You could be sitting here just like me

He said your future looks crystal clear

I just gotta get away from here

Chorus:

I want to be an eagle soaring high

Sign my name across the sky

I gotta break free before I die

Before another day

Before another day goes by

My mother said

Just the other day

Boy get your feet on the ground

She looked at me in such a way

I said Ma

Please dont bring me down

I said My future looks crystal clear

Just gotta get away from here

Chorus

Before I waste another minute

Live my life without begin it

Chorus
