

# Dakota Moon, Another Day Goes By

Another Day Goes By  
By Dakota Moon

Mr. Greene  
Asked me yesterday  
Boy what do you want to be  
With some work  
In ten years or so  
You could be sitting here just like me  
He said your future looks crystal clear  
I just gotta get away from here

Chorus:  
I want to be an eagle soaring high  
Sign my name across the sky  
I gotta break free before I die  
Before another day  
Before another day goes by

My mother said  
Just the other day  
Boy get your feet on the ground  
She looked at me in such a way  
I said Ma  
Please dont bring me down  
I said My future looks crystal clear  
Just gotta get away from here

Chorus

Before I waste another minute  
Live my life without begin it

Chorus
