

Dakota Moon, Don't Give Up On Me

(R. Artis, M. Cirince, C. Glover, A. Logan, T. Taylor)

Sure you have good intentions
But I forgot to mention
All your charity is clouding up my clarity
Sounds like good advice but
This is not your life and
All your sincerity isn't really helping me

Don't catch me I'm not falling
Don't pick me up cause I'm not crawling

I'll put the pieces together
Can't turn a rock to a feather
Please just let me be
But don't give up on me
Not saying that you're not clever
Trying to make it all better
I'm saying once again please
Don't give up on me

Here's the situation
Thanks for your participation
But I gotta figure out
What I want to be about
May be no consolation
Imagine my frustration
You're looking at the screen
But I'm the one in who's in the scene

Don't jump in I'm not drowning
It ain't as bad as it is sounding

I'll put the pieces together
Can't turn a rock to a feather
Please just let me be
But don't give up on me
Not saying that you're not clever
Trying to make it all better
I'm saying once again please
Don't give up on me
