

Dakota Moon, If I Can't Love You

Don you want my love anymore
Can believe your heart is sure
That you don need me, don need me anymore
How could I not realize
Didn see the tears you hide
Hide away from me, Locked away inside

Chorus

And I thought that we were gonna last a lifetime
That this road would never end
And I thought that I be loving you forever
Without you, where do I begin
What would I do, if I can love you
If I can love you

How can we just close the door,
On everything we had before
When my heart is still, when my heart is still yours

Chorus

And I thought that we were gonna last a lifetime
That this road would never end
And I thought that I be loving you forever
Without you, where do I begin
What would I do, if I can love you

I just can face another day,
(Without you) how can I like this day,
What would I do, if I can love you
If I can love you

Chorus

And I thought that we were gonna last a lifetime
That this road would never end
And I thought that I be loving you forever
Without you, where do I begin
What would I do, (what would I do without you)
If I can love you (oooooh oooooh oooooh)
If I can love you (oooooh oooooh oooooh)
Oooooh oooooh oooooh
Oooooh oooooh oooooh
Oooooh oooooh oooooh
