

Dakota Moon, My Song

(R. Artis, J. Dean, A. Logan, M. Malloy, T. Taylor)

Nobody said it would be easy
But nobody said it'd be this hard
Making my way with no direction
Can hardly believe I've come this far

I've got a fire
Burning inside my heart
I've got a dream that helps me to be strong
If there's one thing that I know
With a million miles to go
Nobody, no one
Can take away my song

Everybody has a say
About the way I should be living
Everybody says they understand
Ain't it funny how when times get tough
And the road gets rough
And you're falling
Nobody's there to lend a hand

I've got a fire
Burning inside my heart
I've got a dream that helps me to be strong
If there's one thing that I know
With a million miles to go
Nobody, no one
Can take away my song

No matter what it takes
The river finds the sea
And nothings gonna break me
I'll won't stop believing
Can't take that away from me
