Dala, Anywhere Under The Moon

Broken lines, yellow signs, I can feel your soft shoulder All the trees, follow me In single file

The last power line, my cell phone died I don't even know your number So I drive all the way to Winnipeg

And I could be anywhere, Anywhere under the moon And I could be anywhere Anywhere but I'm with you

Midnight dream, seventeen So afraid I'm missing something Count the miles, to your face, So I drive, to Winnipeg

And I could be anywhere, Anywhere under the moon And I could be anywhere Anywhere but I'm with you
