

Dalbello, Touch Me

Your face
Seems to me I've known you
Somewhere in a half-enchanted place
I have touched
Your face

You smile
Ah... the way you move me
You walk on stage I taste the wine
The power flows---this stallion's mine
You spin me 'round and burst me at the seams

CHORUS

Won't you
Touch Me
C'mon and
Touch Me
You smile and you too-much-me
Won't you come into my dream
And Touch Me

Mellow
You can write the story
Can play the lady you've been waiting for
You are beautiful
Mellow

Closer
Now I can hear the music
You stand up there arms open wide
Taunting me to step inside
How absurd! oh god! this night has been

CHORUS

Won't you
Touch Me
Come on and
Touch Me
You soothe me then you rush me
Won't you come into my dream
and...
Touch Me

BRIDGE

Did you know I followed you?
Did you know that you enticed me?
To write it in the stars that you will
Save me, shoot me into paradise

CHORUS

Won't you
Touch Me
Come on and
Touch Me
You soothe me then you rush me
Won't you come into my dreams

Reach out babe and touch my soul
You can love me, baby, 'til you lose control...
Ah... reach out babe and touch my soul
You can love me, baby, 'til you...
Lose control...
