

# Dallas Crane, Already Gone

She ain't my type  
Was over in one night  
Some dark sides are better unknown  
Stay young, stay gold

If you think I'll come around slowly  
I'm already gone  
She got a man on the wrong side  
I'm already gone

They'll fly down one day  
And take me far away  
The world won't cry and they won't know  
Just how far I'll go

Throw your book at someone else man  
I'm already gone  
I've beat out the stains in my laundry  
I'm already gone

If you think I'll come around slowly  
I'm already gone  
They got a man on the wrong side  
I'm already gone  
They got a man on the wrong side  
I'm already gone
