

Dallas Crane, Come Again

No I don't know your name
I don't mind if you feel the same

Come again you know you're welcome anytime
I couldn't find a better woman if I tried

Fools gold fools me no more
It's all mine that I've seen before

Thanks a million I was only going insane
I'm entertained now and I hope we can again

Pardon me cause I just don't know what to say
It's been a long time since a woman made my day
So come again you know you're welcome any time
You've been a good friend and I hope that cash is fine
