## Dallas Crane, Come Again

No I don't know your name I don't mind if you feel the same

Come again you know you're welcome anytime I couldn't find a better woman if I tried

Fools gold fools me no more It's all mime that I've seen before

Thanks a million I was only going insane I'm entertained now and I hope we can again

Pardon me cause I just don't know what to say It's been a long time since a woman made my day So come again you know you're welcome any time You've been a good friend and I hope that cash is fine
