

Dallas Crane, Come & Go

Well I got a girl
She's good for my heart
When she's in my head
She pulls it apart
And I know sometime
You're gonna make all the wrongs alright

You dress me down
You kick in your feet
I walk in your wake when we're
Out in the street
And I want you by
I want you by my side all the time

My ghosts are all gone and now I can see
My closet of bones is dead in the sea
And every night is like the start of the day
And I got the moon to show me the way home

Pretending to love
Is easy to do
But I got no pink cotton candy for you
And I know sometime
You're gonna make all the wrongs alright

I don't wanna bend to fit in your mould
But I'll need a friend when I'm senile and old
And I want you by
I want you by my side all the time

My ghosts are all gone and now I can see
My closet of bones is dead in the sea
And every night is like the start of the day
And I got the moon to show me the way home

Well I seen the lows
And I seen the highs
I don't see the world like it is in your eyes
And I know sometime
You're gonna make all the wrongs alright

Well I got a girl
She's good for my heart
And she knows the best way to tear it apart
And I want you by
I want you by my side all the time

My ghosts are all gone and now I can see
My closet of bones is dead in the sea
And every night is like the start of the day
And I got the moon to show me the way home
