

Dallas Crane, Iodine

I dreamed a Boeing fall out of the open sky
I dreamed a city burning down in black and white
And the beat goes on for another day
Leonard Cohen knows what I'm tryin' to say
Iodine
Iodine
Rub a little more in my soul
Iodine
Iodine
Crawling through the city of gold

I dreamed it all fell down one sunny day
Everybody knew what they couldn't say
And the beat goes on for another time
Well everybody run but you can't hide
Iodine
Rub a little more in my soul
Iodine
Iodine
Crawling through the city of gold
