

# Dallas Crane, Keep Your Head High Bella Mae

You and me are never gonna be right  
So don't wait up late for me tonight  
This is one of those  
We can't push outta the way

We can fight our demons till we're blue in the hands  
But darling I won't be doing that  
Cause it's time now love  
To move right on in the grave

So keep your head high Bella Mae  
Save your crying for another day

We had the world in our heavy hands  
We'll never have that time again  
So move along tonight  
But don't sit around by the phone

You and me were always running behind  
Now I know we're outta time  
And it's the only way  
And deep down darling you know

So keep your head high Bella Mae  
Save your crying for another day  
So keep your head high Bella Mae  
Save your crying for another day

You and me we had a one night stand  
And time ran out on our master plan  
But it's gone tonight  
We ain't got nothing to say

You and me are never gonna be right  
So don't wait up late for me tonight  
This is one of those  
We can't push outta the way

So keep your head high Bella Mae  
Save your crying for another day  
So keep your head high Bella Mae  
Save your crying for another day
