

# Damage, Love Guaranteed

Whatever you want, whatever you need  
Whatever you want, whatever you need  
Now that you know, I love you so  
And now you know I can't let go  
Stay in my world, girl, forever and a day  
And promise we'll be more than friends

CHORUS

Anything you want, anything you need  
I can give you love guaranteed, baby  
Anything you want, anything baby  
I can give you what you need (you need)  
There was a time when I was lost,

And I never thought I'd find someone  
Then came you and you turned it all around  
I'm overjoyed cos it's love I've found

CHORUS X2

All you have to do is call me  
(Baby just call me)  
You don't have to worry at all (at all)  
Just reach out your hand  
(Baby, dream all your troubles away)  
(Oh yeah, it's anything you say)

CHORUS TO FADE
