

Damien Jurado, Great Today

Have the potential to be great today
Everyone I know will see the change
To be greater than I have before
Drawing lines that drag me to the floor

You could be so much better

Something tells me that you're on my side
Feeding me words that one day will kill my pride
You're too much for me that's what you said
You're too much for me that's what you said

I see potential
You'll be so much better

You could be so much better
