

Damien Rice, Toffee Pop

Huge eyes, know I'm missing
So I close mine , when I'm kissing
Lolly pop, licking
Yeah with Lola
Sticking like like toffee to my teeth
Wait watch, gravitate, grab hold of, insulate
Wait watch, its too late, its over now

I've got so much beauty around me I can't loose
I've got so much beauty around me I can't loose
I've got so much beauty around me I can't choose
I've got so much beauty around me, around you

Well toffee pop, so sticky
In the heat, Lola gets angry
Over meat,
And who did I, who did I, who did I, who did I, push out
And who did I, who did I, who did I, hear shout

Wait watch gravitate, grab hold of, insulate
Wait watch it's too late
It's over now

I've got so much beauty around me I can't loose
I've got so much beauty around me I can't loose
I've got so much beauty around me I can't choose
I've got so much beauty around me, around you

You, You, You

Do do do do do do do do do do do do do do do

I want you back
