Take Take Take the big breaks  
Walk walk the fine the fine line  
Get in tune We all want more  
Stop Stop Stop the chit chat  
Move Move the rug the rug rat  
I Bet the zone Kick the door mat  
See The Sea the sunlight  
Use your heart light  
Shine a way out

Play the tapes in your mind that you made  
Take hold of each day for it comes your way  
Playing games that you like you only fool yourself  
So grab hold of life cause it's me and myself  
And let go of the rules  
Turn right and never left  
For you could be the king or the queen of the land  
With no doors at your house to welcome the people

What you think  
What you feel  
What you think  
What you fell is LAWLESS

The heat is on  
It's on the streets  
Stop move kick  
Get Freak beat (freaky)  
See you shine play that play  
Then you're on your way  
Flashing lights  
Doorbell rings  
Step to the side

You can take the best of life and make it lawless  
To live is to love to hate you waste your life away  
What you think and feel  
To love is to live  
To hate, you waste your life away  
In time, is too long  
Why wait  
Don't waste your life away

A hop skip skip switch Dirty smack  
Jack up up up the beat back  
Don't get jiped  
Ripped flipped flipped slipped slide off  
Don't get ripped flipped jipped off

What you think
