

Damnation, Lord Of The Flys

We've been used and we've been used
We've been molested and abused
& you're just so
This bastard renegade
Walking on St. Mark's Place
Lock and load
The smell of fear
Search to find a bullet shield
Today they play that way
So we want punk rock-n-roll
Wrong place at the wrong time
Daddy & momma took the fall
You've been used and you've been used
Just like your money was
You've been used
This christian politician
Reveling in speed
He wraps his loving arms
Around his money tree
Today they play that way
So we want punk rock-n-roll
Some sit in puke & piss & shit
Because it's good for sympathy
And why
I've heard it before
Although I've hated before
Although I've heard it before
It's all inside
It's come alive
Used...we've been used
We've been molested and abused
By the lord
The lord of the flys
