

Damnation, My Halloween

This whole place has really gone to shit man
A real down hill tune
Everybody owes you candy
You'll glass to chew
Trick or treatin' is a dangerous game man
The children walk in fear
One razor in a poison apple
Could ruin christmas cheer
Lost in outer spacin' out (Now you're bringing me down) x3
It's 3 am
Chorus:
Go on die and see
It makes no difference here
The harsh reality
Just don't let it spoil my halloween
Lost in outer spacin' out (Now you're bringing me down) x3
Chorus
