## Damned, Billy Bad Breaks

Little by little I've begun to see Just why love don't come easily One step forward and two behind Waiting for the best chance just takes time

And they call you Billy Billy bad bad bad breaks All you ever do is make mistakes Billy billy bad bad bad breaks All you ever do is make mistakes

Beyond the realms of fantasy
We can see that it's not to be
We can not be like Howard Hughes
We don't have the choice to choose

And they call you Billy Billy bad bad bad breaks All you ever do is make mistakes Billy billy bad bad bad breaks All you ever do is make mistakes

And they call you Billy Billy bad bad bad breaks All you ever do is make mistakes Billy billy bad bad bad breaks All you ever do is make mistakes

What does the future hold in store More bad luck at your front door You take the silver and I'll take the gold But who's the winner when all is told

And they call you Billy Billy bad bad bad breaks All you ever do is make mistakes Billy billy bad bad bad breaks All you ever do is make mistakes
