

# Damned, Citadel

Bend down arms out who goes there  
We have journeyed far from here  
I was a pigeon in Leicester Square

This is daddy  
Hope you both are well  
Please come see me  
In the citadel

In the streets of many wars  
Hear the panzers come and call  
You can hear their numbers called

This is daddy  
Hope you both are well  
Please come see me  
In the citadel

Screaming people fly so fast  
You can drive in metal cars  
In their words of steel and glass

This is daddy  
Hope you both are well  
Please come see me  
In the citadel
