

# Damned, I Need A Life (Birmingham 6 Mix)

I need your time, I need your soul  
I need this temperature to go down low  
Got to realize my word's the truth  
I never thought that I could lose

But when I get you on the phone  
My heart is so alone  
I need a life

I need your time, I need your soul  
I need this temperature to go down low  
Got to realize my word's the truth  
I never thought that I could lose

But when I get you on the phone  
My heart is so alone  
I need a life  
I need a life

But when I get you on the phone  
Gotta realize  
I need a life  
But when I get you on the phone  
Gotta realize  
I need a life

I need your time, I need your soul  
I need this temperature to go down low  
Got to realize my word's the truth  
I never thought that I could lose

But when I get you on the phone  
My heart is so alone  
I need a life  
I need a life

I've watched you stumble  
I've seen you fall  
I've picked you up  
When you could only crawl  
Got to realize my word's the truth  
I never thought that I could lose  
But when I get you on the phone  
My heart is so alone  
I need a life

But when I get you on the phone  
Gotta realize  
I need a life  
But when I get you on the phone  
Gotta realize  
I need a life

I need a, I need a, I need a life  
I need a, I need a, I need a life  
I need a, I need a, I need a life  
I need a, I need a, I need a life  
I need a, I need a, I need a life  
I need a, I need a, I need a life  
I need a, I need a, I need a life  
I need a, I need a, I need a life
