

Damned, Politics

I used to get real bored in class
I don't need no politics to make me dance
No rules no laws no regulations
No facist friends no race relations

I just wanna run around
I don't wanna settle down
Politically fashionable scene
Facist managers dreams

My politics don't sell clothes
And riots don't sell my soul
If I vote for something it's something I can see
Give me fun not anarchy

Just wanna run around
Don't wanna settle down
Politically fashionable scene
Facist managers dreams

I used to get real bored in class
I don't need no politics to make me dance
No rules no laws no regulations
No facist friends no race relations

I just wanna run around
Don't wanna settle down
Politically fashionable scene
Facist manager dreams
Dreams
