

Damned, Shadow To Fall (Razed In Black Mix)

Shadowed by life well you never can tell
Fall down a hole and you burn in hell
Striptease yourself against the wall
And watch the shadows begin to fall
Begin to fall
Begin to fall
Begin to fall
Begin to fall
Begin to fall
Begin to fall
Begin to fall
Begin to fall

Shadows shadows shadows begin to fall
Shadows shadows shadows begin to fall

Crazy, crazy dancing fire
Think of those days that took you higher
Look at yourself through a telescope
Drowned by life well there's always hope
Always hope
Always hope
Always hope
Always hope
Always hope
Always hope
Always hope
Always hope

Shadows shadows shadows begin to fall
Shadows shadows shadows begin to fall

I don't need those shadows
I don't need those shadows
I don't need those shadows
I don't need those shadows
I don't need those shadows
I don't need those shadows
