Damned, Shadow To Fall (Razed In Black Mix)

Shadowed by life well you never can tell Fall down a hole and you burn in hell Striptease yourself against the wall And watch the shadows begin to fall

Shadows shadows shadows begin to fall Shadows shadows shadows begin to fall

Crazy, crazy dancing fire Think of those days that took you higher Look at yourself through a telescope Drowned by life well there's always hope

Shadows shadows shadows begin to fall Shadows shadows shadows begin to fall

I don't need those shadows

I don't need those shadows
