

# Damned, Shut It (Die Krupps Mix)

Every time I talk to you  
It's plain to see it's always indecision  
Plain as all the faces that you know  
Always turn their back on you

And every time you open up your mouth  
Why don't you shut it, shut it, shut it, shut it

You play around with my heart  
Leaving me opened up and bleeding  
You laugh at me but it's there to see  
I'm not going to take this thing you're laying down on me

When you gonna get rid of those demons that you hide  
And shut it, shut it, shut it, shut it

Every time I talk to you  
It's plain to see it's always indecision  
Plain as all the faces that you know  
Always turn their back on you

Every time you open up your mouth  
Shut it, shut it, shut it, shut it, shut it  
Shut it, shut it

When you gonna get rid of those demons that you hide  
Shut it
